

...up with friends, new teachers, new courses, but also future exams, which are often sources of stress 😬

At SCRIBZEE, we are convinced that everything starts at the beginning of the school year by adopting good work and organisation habits. We'd like to share our 5 tips with you for a good school year from start to finish.

Let's get started! 🚀

Share your notes with your friends

1. Scan your notes so you always have them with you

1

Click on « scan »

2

Select the correct scan mode

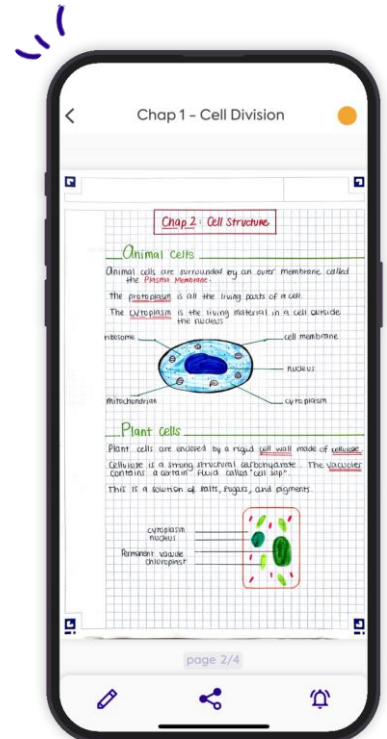

Scanning modes

- VERTICAL**
All scans except spot notes and flashcards
- HORIZONTAL**
All scans except diaries and spot notes
- SQUARE**
Spot notes only

3

Target the markers in the corners and scribee detects the page

4

scribee reframes your scan

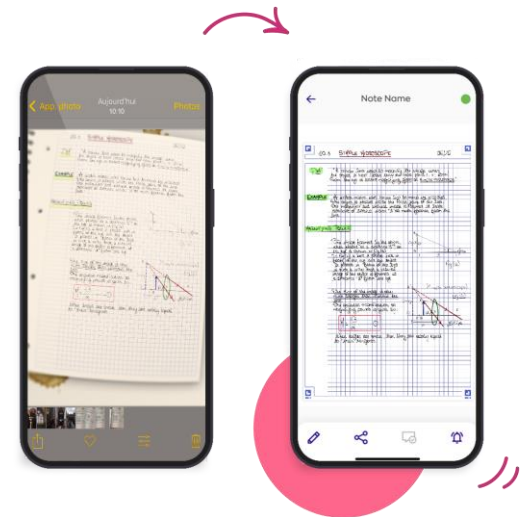

Why scan with scribzee?

- › By having everything within reach, on your phone, **you can revise wherever and whenever you want**. You no longer have to bring your notebooks, binders or sorting files with you.

What's the difference with a picture taken with your phone?

- › Scribzee reframes, straightens and enhances your scanned documents. As a result, your notes are very easy to read. Not like some of your pictures where bits of pages are missing.
- › Moreover, with scribzee, **your scan isn't mixed up with the other photos in your gallery**.
- › And with scribzee, **you have access to many features** to track your revision.

2. Plan your revision sessions in the scribzee calendar

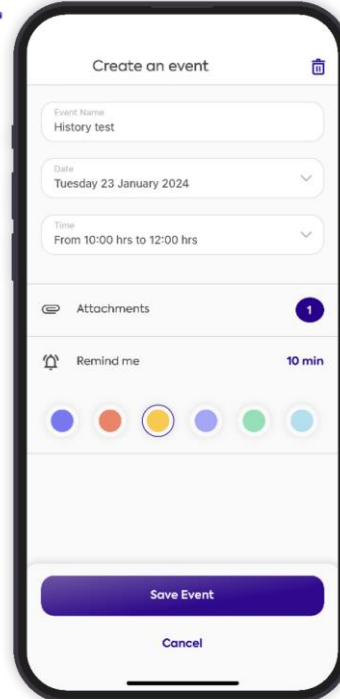

1

Click on
« Calendar »

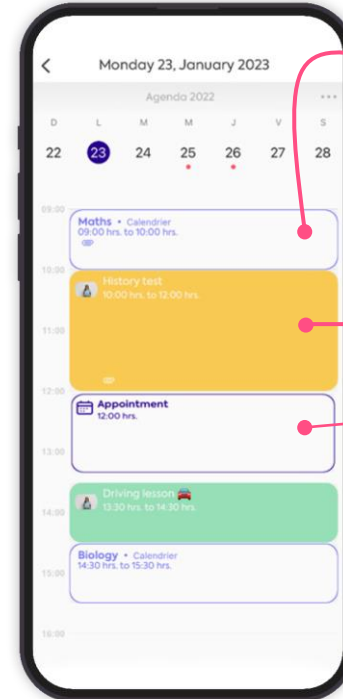

2

Go to the day of your
choice & click to create
an event

3

Fill in all the details for your
revision session & add
scans if necessary

4

All your revision sessions
are displayed in the
scribzee calendar

Events from an external calendar :
By importing a calendar (Profile > Preferences > Import calendar), calendar events are visible in scribzee

Events created manually

Events from compatible diaries :
After scanning, events are displayed in the calendar

Why create your revision schedule on scribzee?

- › Get all your revision sessions in the same place,
- › Be reminded of important appointments or homework to hand in with the reminders,
- › Make your revision easier by linking the notes to review to your study sessions

3. Track your progress

with the coloured statuses positioned on your scans

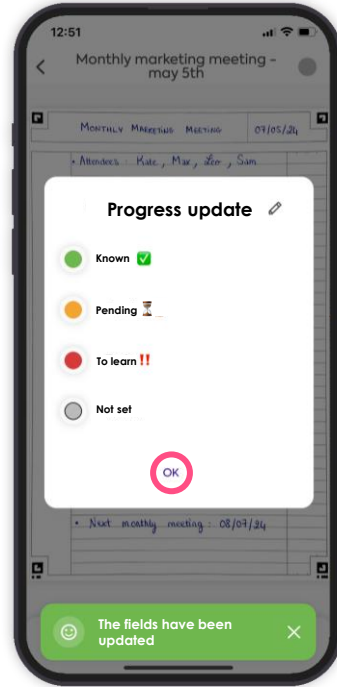

1

Go to your scan & click on the "status" icon

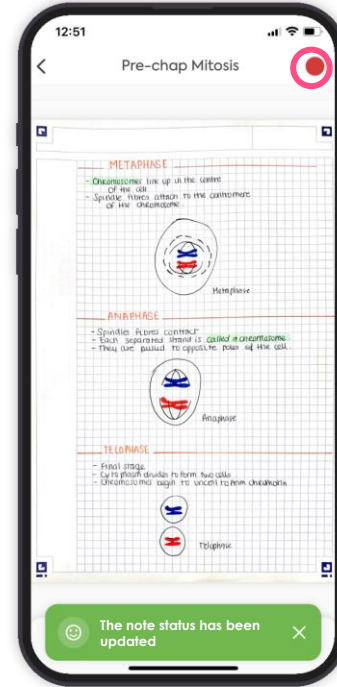

2

Update progress statuses

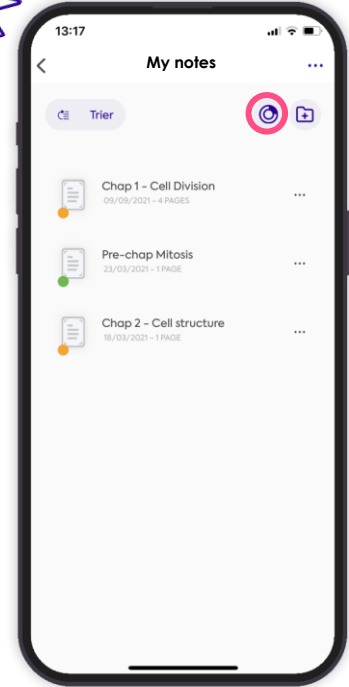

3

Customise the progress statuses to suit your way of learning and click 'ok'.

4

Select the status corresponding to your progress. It will appear on your scan

5

In your folder, view the status of your notes/revision cards and prioritise your revisions

Why use scribzee progress statuses?

- › To never have to ask yourself the question "where was I?" when learning your revision notes,
- › Quickly visualise which lessons you need to revise first thanks to colour coding
- › Seeing your **progress** over time: there's nothing more satisfying!

4. Learn efficiently with flashcards

What are flashcards?

Small cards where you write a question on the front and the answer on the back. This simple method is terribly efficient to memorise vocabulary, formulas, definitions, dates and notions.

5 tips to create efficient flashcards

- › Note **one and only one information** by flashcard
- › Note **the question** or a word **on the front** and the **answer** or translation **on the back**
- › Illustrate with **diagrams** and add colour to your flashcard
- › Read the question on the front of the flashcard & **try to find the answer without having a look at the back**
- › Use the study & quiz modes in scribzee **regularly**

2 learning modes with scribzee?

Memorise easily thanks to tailor-made revisions based on the Leitner method

How it works?

The Leitner method is based on the principle of spaced repetition to facilitate rote learning. At the beginning, all the flashcards are in box n°1. When you answer a flashcard correctly, it's moved to box n°2 and so on, until in box 5 where the flashcard is considered mastered.

A powerful algorithm based on this model has been integrated into scribzee.

It creates personalised review sessions based on your knowledge of the flashcards. As a result, you spend time on the flashcards you know the least.

Make sure you're ready for your exam

How it works?

In the same session, all the flashcards are shown & your score appears at the end.

Then, you can choose to :

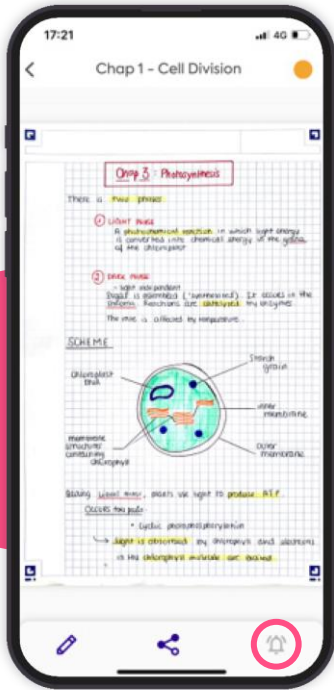

- Improve your result by reviewing only the flashcards you don't know again.
- Restart the whole quiz.

View all your flashcards in scribzee to study where & when you want!

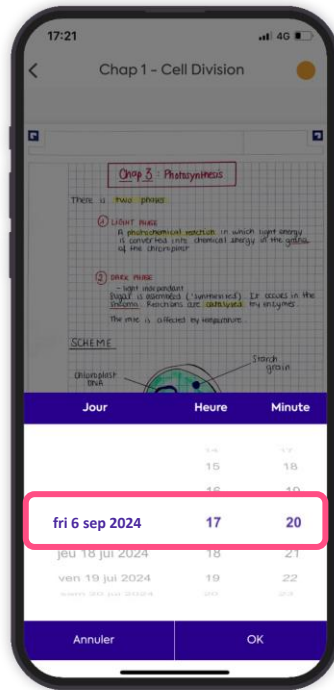

5. Set reminders

so you never forget to hand in your homework again

1

Go to the lesson you need to revise and click on the reminder icon

2

Choose the date and time of your reminder

3

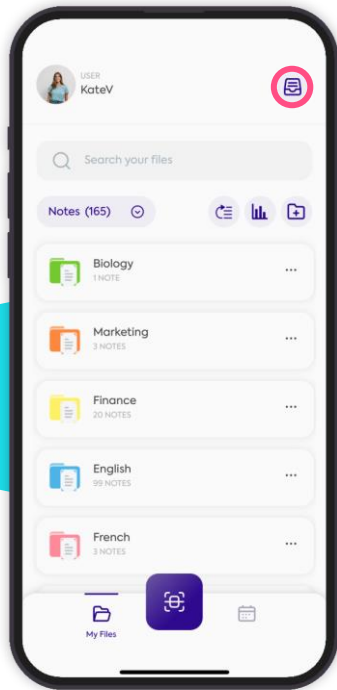

Scribzee reminds you to study

6. Get advice on the best revision techniques to use

Ready to **optimise** your **revision** with scribzee?

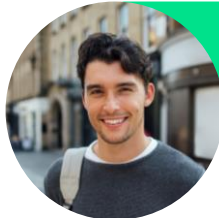

If you're still unsure, **take a look at what the students using it are saying:**

« I'm in high school and I often forget the revision notes I spend hours doing. Thanks to scribzee I can always check them (especially when I've forgotten them). The flashcards allow me to study and help me ask myself the right questions. It's really great and I can even plan when I need to study.»

« I love this app. It helped me to pass my A-levels. I will keep using it next year. »

« It's an amazing app for sharing notes and timetables. »

« It's very handy for revising when travelling or when you don't have room in your school bag to take all your exercise books with you.»

« I use the app for my medical studies. It's the method that works the best for me with the flashcards »
